LANGUAGES

📄 Javascript(ES6+)
📄 TypeScript
➕ Python

FRAMEWORK / LIBRARIES

🔗 React.js
🔗 Redux Toolkit
🌀 TailwindCSS
🔗 Next.js
📦 Node.js
🔗 Express.js
🔗 React-query
🔗 TanStack Query
🔗 React Router DOM
🔗 mongoose
🔗 Jest

VERSION CONTROL TOOLS

🔗 Git and GitHub

DevOps & Tools

🐳 Docker
🔗 Postman
🔗 Swagger
🔗 Cloudinary

Build Tools / Bundlers

📦 Webpack
🔗 Vite
📦 Parcel

Developer Tools

🔗 Chrome DevTools
🔗 VSCode
🔗 React DevTool

DataBase

🗄️ MySQL
🗄️ Redis (for caching & session management)
🔗 MongoDB(Mongoose)

Other

📄 REST API
🔗 OAuth
✉ Nodemailer

EDUCATION

🎓 Visvesvaraya Technological University, Belagavi.
— B.E in Mechanical
Passout In: 2018

MORE PROJECTS

🥰 HappyMeal (MERN + RTK)
👤 OldYT (MERN)
📦 Drag&Drop (HTML+CSS+JS)
📄 Drawing (JS Based game)
📄 MusicDrum (React)
📄 CodePen (React)

EXPERIENCE

Technolader Pvt Ltd - Blockchain Development Company

- MERN stack Developer, Jaipur May 2024 -July 2025
 - Improved search speed by ~40% by optimizing logic and minimizing redundant operations for faster user results.
 - Lead debugging and troubleshooting efforts across systems to maintain high performance and stability.
 - Minimized app crashes by 30% through effective fallback error-handling implementation.
 - Built a Docker-based tool for bulk GPG to WebP conversion, streamlining design workflow and improving load speed by 6%.

Avisirah Technologies Private Limited

- Fullstack Engineer, Hyderabad March 2022 -February 2024
 - Increased code reusability by 30% through leveraging React reusability, resulting in a more efficient development process and streamlined maintenance.
 - Led team initiative to implement dual-end user data authentication, boosting data cleanliness by 20% and slashing error rates by 10%.
 - Developed RESTful APIs for seamless integration with third-party systems, resulting in a 20% reduction in response time.
 - Reviewed and championed clean coding practices, fostering efficient code usage among team members. Ranked in the team's top 10 for both clean code writing and code efficiency.

Noncore Experience

Aditya Birla Capital Limited

- Certified Equity Research Analyst, Hyderabad Dec 2021-Feb 2022
 - Conducted detailed financial analysis and valuation of equities and bonds to support investment recommendations.

Karvy Stock Broking Limited

- Equity Research Analyst, Hyderabad Jan 2019 -Nov 2021
 - Authored comprehensive research reports covering company performance, industry trends, and market outlook.

PROJECTS

FlickFlair [GitHub](#) | [Project Link](#)

React.js, Javascript, TailwindCSS, Node.js, Express.js, RestAPI, MongoDB, Redis

- Reduced client-side build size by 55% through code splitting and prioritized loading, significantly improving performance.
- Implemented server-side caching for expensive database queries, reducing data latency by 30% and improving response time.
- Deployed on AWS Lambda (serverless) to minimize database connections and ensure scalability under heavy load.
- Supports authentication functionality for user login, logout, and password recovery.
- Applied Singleton Pattern to create a single source of database connection, reducing overhead and improving query efficiency.

SkillForge [GitHub](#) | [Project Link](#)

React.js, ReactRouterDOM, TailwindCSS, Node.js, Express.js, RestAPI, MySQL

- Developed a secure authentication system utilizing JWT tokens and bcrypt encryption, ensuring data privacy and protection for user accounts.
- Integrated Multer for efficient file management, streamlining workflow processes, and enhancing productivity. Implemented pagination technology to optimize data retrieval, resulting in faster page loading times and enhanced user satisfaction. Implemented useContext to optimize API calls, resulting in a remarkable 40% reduction in expenses, showcasing strategic resource management skills. Facilitated interaction with fellow developers and HR teams, fostering collaboration and networking opportunities within the developer community.
